

## Checklist On How To Control Mildew On Squash

### Items needed

- \_\_\_\_\_ A sprayer or spray bottle.
- \_\_\_\_\_ Water.
- \_\_\_\_\_ Milk (skim, 1%, or 2%) recommended.
- \_\_\_\_\_ A squash plant to treat.

### Start Here

- \_\_\_\_\_ Mix 9 parts milk to 1 part water.
- \_\_\_\_\_ Shake thoroughly.
- \_\_\_\_\_ Apply in early morning or evening. Do not apply during the heat of the day.
- \_\_\_\_\_ Spray on leaves of squash. Make sure they are wet.
- \_\_\_\_\_ Spray another application 5 to 10 days later.
